CLIENT / DESCRIPTION OF WORK PERFORMED:

INTERNAL REVENUE SERVICE — Enterprise FISMA Compliance

VariQ assures security compliance through SA&A, Continuous Monitoring, E-D SCA, SAS activities for 150+ applications and general support systems (GSS), enabling the IRS to collect over $2 trillion in revenues and process over 250 million tax returns each year.

UNITED STATES COAST GUARD — Engineered System Support Services (ESSS)

VariQ develops new software solution concepts supporting ALMIS, ALMIS integration to CG-LIMS, and related enterprise logistics systems to extend current capability. We improve system stability through the development of software standards and the application of industry accepted practices.

DEPARTMENT OF HOMELAND SECURITY — Automated Biometric Identification System (IDENT)

VariQ is responsible for all lifecycle support services for new capability releases of the IDENT. The system delivers a common business function—identity authentication—through a shared service model implemented via a Service-Oriented Architecture (SOA).

INTELLIGENCE COMMUNITY — Technology Analysis & Assessment

VariQ provides long range strategic and technological warning to defense and U.S. national security policy makers, defense planners, Combatant Commands (CCMD), and warfighters to shape strategic outcomes, guide the development of defense capabilities, secure defense policy objectives, and mitigate risk.

US MINT — Cyber Security Compliance

VariQ provides security risk management services including RMF Implementation, Security Assessment & Authorization (SA&A), Insider Threat Program Support, POA&M Management, ISSO Support, Audit Support, Privacy Impact and Control Assessment.

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES — Verification Information System, Operations & Maintenance

VariQ provides Software Development, Operations, and Business Intelligence Services in support of 76,000+ users. Utilizing a Scaled Agile methodology, VariQ provides DevOps, web services integration, and Tier 1 help desk support.

OFFICE OF THE COMPTROLLER OF THE CURRENCY — Cyber Defense Center

VariQ provides 24x7x365 security management, engineering, and oversight of the Cyber Defense Center (CDC). Our support includes Security Operations Center (SOC)/ Security Information and Event Management (SIEM), Incident Response, and Security Engineering.

SECURITIES AND EXCHANGE COMMISSION — Audit Cyber Security Compliance & Security Documentation Support

VariQ's support includes implementation of the NIST Cybersecurity Framework, Information Security Audits, Information System Security Plan Development, POA&M Management, and User Access Recertification Report Management.

CONSUMER FINANCIAL PROTECTION BUREAU — Cybersecurity & Program Analysis Support Services

VariQ provides cybersecurity program management, risk management, and operational security monitoring and analysis to a variety of projects and programs within the Technology and Innovation Office.

UNITED STATES CAPITOL POLICE — PMO

VariQ delivers key Project Management Office (PMO) infrastructure components including: EVM, Financial Performance Management, Requirements Management, Risk, and Program Metrics.

BUREAU OF ENGRAVING AND PRINTING — IT Cyber Security Services

VariQ provides on-site technical, analytical, and program management support to include certification, compliance and audit evaluation, continuous monitoring, IT security event management, and security assessment support for new and existing systems, major and minor.

ABOUT VARIQ Founded in 2003, VariQ is an award-winning Information Technology and IT Security Services company with a focus on Federal, State, and Local Government departments and agencies. As a mid-tier business, we design, implement, and manage secure IT solutions for today's complex and dynamic client enterprises. Our core competencies are in Cyber Security, IT Infrastructure, and Software Development.

VariQ is a CMMI Level 3, ISO 9001:2015, ISO 20000-1:2011, and ISO 27001:2013 certified company. Our commitment to quality, IT service, and information security is embedded in our company's culture and established Quality Policy:

We will achieve client satisfaction by continually improving processes, responsiveness, and services that exceed client requirements and expectations.
