CLIENT / DESCRIPTION OF WORK PERFORMED:

**UNITED STATES COAST GUARD — Engineered System Support Services (ESSS)**

VariQ provides the U.S. Coast Guard Aviation Logistics Center (ALC) IT services for mission support for the Asset Logistics Management Information System (ALMIS). This includes overall operations of logistics focused on engineered IT systems at the ALC and the Coast Guard's enterprise logistics information system (ALMIS).

**US HOUSE OF REPRESENTATIVES — Information Resources Support**

VariQ provides a wide range of IT Services and Support for the US House of Representatives – Chief Administrative Office/House Information Resource and Enterprise Technology Systems groups.

**MICROSOFT CONSULTING SERVICE PROVIDER**

VariQ's Microsoft Consulting Services focus on maximizing benefits from Microsoft technology and offering a deep Microsoft experience, knowledge, and skill set. We implement successful deployment and use of Microsoft solutions. Our customers include NIH, CDC, Pacific Command, NSA, Pension Benefits Guarantee Corp, and various others.

**DEPARTMENT OF STATE — INL/A Help Desk**

For Department of State (DOS) INL/A special missions and day-to-day Command, Control and Communications, VariQ supports the maintenance of the global INL/A IT and communications network and associated information systems that are collectively referred to as "Global INL." The Global INL Enterprise supports over 2,200 devices.

**DEPARTMENT OF HOMELAND SECURITY — Student & Exchange Visitor Information System (SEVIS)**

VariQ provided Help Desk Level 2 support services for the Student and Exchange Visitor Information System (SEVIS) application. Our support included XML analysis and SEVIS application support. Our team processed over 6,500 tickets per month, escalated from the Level 1 help desk. Our HDI certified personnel utilized CRM and Remedy for tracking all assigned issues and requests.

**UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES — Verification Information System, Operations & Maintenance**

VariQ provides Software Development, Operations, and Business Intelligence Services in support of 75,000+ employers and 1,100+ government agencies. The VIS system supports more than 50,000,000 annual queries. Utilizing a Scaled Agile methodology, VariQ provides DevOps, web services integration, and Tier 1 help desk support, which responds to over 3,500 inbound calls per month.

**U.S. CAPITAL POLICE — Project Management Office (PMO)**

VariQ provides Enterprise Architecture (EA) services to the U.S. Capitol Police (USCP). We evaluated EA maturity and recommended a set of steps to implement an EA program, and now support the implementation and on-going maintenance of the USCP EA. VariQ staff also designed and developed an EA repository and reporting systems supported by several open-source rendering tools.
